Welcome Oxford University Library visitors!

Welcome to the Online Egyptological Bibliography (OEB). It includes the volumes of the previous Annual Egyptological Bibliography (AEB) combined with the Bibliographie Ägyptiaca (BA), providing coverage of Egyptological literature from 1822 to 2002 (roughly 70,000 items), as well as partial coverage of 2003-2008.

What's new

January 2011  At the end of 2010 Willem Horstreydt retired as Editor of AEB/OEB. His successor as Coordinating Editor of OEB is Gareth Roberts. Related changes in addresses are noted at the foot of this home page.

AEB/OEB owe an enormous amount to Willem Horstreydt, who worked for AEB for more than twenty-one years, assuming the prime editorial role a number of years ago. Willem, together with now retired Editor Louis Zohnoven and Hans van den Berg for technical matters, supervised the conversion of the printed books of AEB, first to a database presented on a CD-ROM together with a website that gave updates, and then in 2009 to fully online presentation. Willem was also instrumental in assisting the move of AEB to Oxford and its transformation into OEB. Without his astute and active engagement, the survival of AEB/OEB would have been severely threatened. On 17 December 2010 a reception held in Leiden honoured Willem and his role in AEB, alongside those of others in the Netherlands. The world of Egyptology is greatly indebted to all of them for creating and developing an instrument that is the envy of many subject areas. We are very pleased to say that Willem Horstreydt will continue to be available as a consultant to OEB.

December 2010  The OEB database has been moved to a new server that provides faster online response and greater security against any system failure. The web address remains the same.

September 2010  Over 600 items added online, including coverage of a number of journals that were previously not surveyed for OEB. Tables of Periodicals and Collected volumes greatly improved and extended.

The 2011 subscription period for OEB is now open. Reminders are being sent to all those whose subscription year runs from 1 January.

For information about site licences and institutional multi-user licences, see this link. For information about individual subscriptions, see this link. For individuals, payment is by credit or debit card. Another type of subscription is combined with membership of the International Association of Egyptologists, at two rates, one for individuals and another for students. For details, see this link.

For institutions or individuals who subscribed before 1 January 2009, the subscription year runs from 1 January to 31 December. Those who took out subscriptions after the beginning of 2009 have an annual renewal date on the day in the year...
Search guidelines:
- Searching is limited to a maximum of five words.
- Boolean search operators like AND, OR, NOT and parentheses () are allowed, as well as word truncation (with the use of *).
- You can select to search either in the title description, the abstract or both.
- N.B. Searching for literal strings (with the use of *) is currently not supported.
- It is possible to enter a year as a search term e.g. 1984.

Er(n)ster Hinweis

This database does neither replace the bibliography of Chr. Beinlich-seeber nor the CD-ROM of the AEB. To date the database contains 65,500 entries 16.5% of which are still lacking the keywords which normally are added. Nobody should think that completeness is possible in this field of documentation, missing entries still abound. A negative result when searching with a certain keyword does not mean that a publication referring to it is inexistent. The user should get acquainted with certain conventions used for this database. Explanations

The English version for navigation and menus, created 10/10/10, is offered to users who may have difficulties with the German language. It is perhaps sometimes Pidgin English. Its author (EG) apologizes; propositions for improvement are welcome.

Off-prints, lists of publications or other bibliographical information were kindly put at our disposal by: Alain Anselin, Barbara Barich, Marek Chlodnicki, Krzysztof Cialowicz, Günter Dreyer, Victor M. Fernández, Renée Friedman, Maria Gatto, Gwenola Graff, Ulrich Hartung, Dirk Huyge, Karin Kindermann, Rudolph Kuper, Veerle Linseele, Fabienne Loyens, Béatrix Midant-Reynes, Heiko Riemer, Noriyuki Shirai, Alice Stevenson, Yann Tristant, Edwin van den Brink, Jaap van Dijk, Wim Van Neer, Pierre Vermeersch. Furthermore, I would like to thank Wouter Claes (librarian at the Royal Museums for Art and History, Brussels) for bringing many publications to my attention.

Additions to this bibliography will continue to be published yearly in Arché-Nil. Therefore, it would be most useful if scholars would send their publication lists, off-prints and additions or corrections to the author:

Keyword Search in Both Oxford OLIS and Bodleian Pre-1920 Catalogues

Search for _______ in All Authors _______

and _______ in All Titles _______

and _______ in Publisher _______

Sort results by [None] _______. Display _______ records per page

[Submit Search]

Note: If the result set has more than 100 records, it will not be sorted.

Use this option to search for words in the catalogue indexes. Enter your search term and choose an index. The result screen displays a result list of any matching items found. You only have to fill in one search term but you can optionally fill in up to three search terms to perform advanced searches. This is particularly useful for author-title searches.

Example: Search for **rowling** in All Authors and **phoenix** in All Titles

The indexes are case-insensitive and ignore diacritics (accents etc). If you enter several words in the same search term box then please enter the least common first; this should make your search more efficient.
